

Why are WINTER BILLS higher?!

Temps in Clayton have been BONE CHILLING!

December & January

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
24 63° 44°	25 46° 33°	26 44° 29°	27 43° 33°	28 31° 20°	29 41° 18°	30 52° 26°
31 34° 25°	1 27° 16°	2 30° 12°	3 33° 11°	4 31° 19°	5 31° 13°	6 27° 10°

PLUS:

We're all inside more!

The TV is on more!

We cook & bake more for the holidays.

Clothes dryers run more often.

Thermostats are set too high!

The lights are on longer because of shorter daylight hours.

The colder it is, the harder & longer our heat system and water heaters work!

BOTTOM LINE: OUR HOMES USE MORE ELECTRICITY DURING THE WINTER!

SAVE \$\$\$

Adjust the temp

Your thermostat is the key to saving money!!!

Set at **68°**

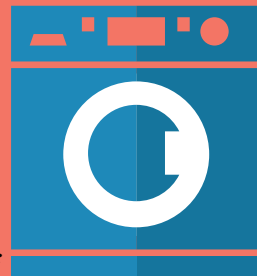

Heating costs can be 50-80% of your bill! Turn down the thermostat a few degrees when you leave home or go to sleep. Your bill could be 13% lower if you just bump your thermostat down from 72° to 68° - that's just 4 degrees!

Switch to cold!

Heating water to do laundry is one of the largest users of energy in a typical home.

You can save

7-11%

Lower water heating costs!

Water heating can account for

14% to 25%

of the energy used in your home.

Turn down the water heater to a recommended setting of 120°F
